

## 2019 Call for submissions

We are happy to announce that submissions are now open for the 15th Annual NeuroPsychoEconomics Conference in **Rome, Italy**. The conference will be held on **June 6-7, 2019** at LUISS University (Viale Pola, 12, 00198 Roma RM, Italy, [www.luiss.edu](http://www.luiss.edu)). The conference chairs are Professors Fabio Babiloni (University of Rome Sapienza), Simona Romani (LUISS University), and Rumen Pozharliev (LUISS University).

The **deadline for submissions** is Friday, **March 15, 2019**, 11:59pm CET.

The conference theme of 2019 is:

### **“Tackling the underlying neural and psychological mechanisms of human economic decision making”**

Topics preferably combine problems in economics, psychology, and/or neuroscience, and include (but are not restricted to):

- **Linking choice data and decision processes.** Understanding the neurophysiological drivers that underlie behavior and decision making. For example, studies that link behavior to response times, neural activity (e.g., EEG or fMRI), gaze patterns (e.g., eye tracking), or click patterns (e.g., Mouselab).
- **Investigating the underlying mechanisms of decision processes** by means of fundamental tools from economics, psychology, neuroscience, mathematics, and statistics (including formal modeling).
- **Applying integrative approaches to broaden our understanding of the key features of decision processes**, such as understanding how people make decisions (e.g., economic decisions) or how the brain calculates gains and losses, especially with regard to cognitive, affective, motivational, or social factors.
- **Applying the principles of affective, cognitive, and social neuroscience research** to research questions in management & organizational behavior, marketing & consumer behavior, financial decision making, law, information systems, or translational medicine.
- **Discussing possible ethical/legal issues** that emerge from such applications.
- **Methodological presentations** on state-of-the-art investigations in decision neuroscience. For example, fMRI, TMS, DTI, EEG/ERP, genetics, and endocrinological studies.

Both empirical and conceptual submissions are welcome.

### Competitive paper submissions

- Competitive papers for the 2019 NeuroPsychoEconomics Conference must be submitted **by March 15, 2019, 11:59pm CET**. The link to the online submission tool can be found at <http://www.jnpe.org> (under “Conference” and “Submissions”). Please do not submit your competitive paper by email but only through the online submission tool.
- Competitive paper submissions can either consist of a full paper of up to 40 double-spaced pages or an extended abstract of up to 1,500 words.
- *Full paper submissions* (up to 40 double-spaced pages) must include a short abstract of no more than 350 words (for inclusion in the *NeuroPsychoEconomics Conference Proceedings*, ISSN 1861-8243) and conform to the author guidelines of the American Psychological Association (APA). When submitting your paper, you will be asked to indicate whether or not you intend to publish the full paper, if accepted, in the *Journal of Neuroscience, Psychology, and Economics* (ISSN 1937-321X).
- *Extended abstract submissions* (up to 1,500 words) will go through an expedited review process and should go beyond a research proposal (i.e., empirical extended abstracts should present information on data and results, conceptual extended abstracts should clearly state their theoretical contribution). Extended abstract submissions must also include a short abstract of no more than 350 words (for inclusion in the *NeuroPsychoEconomics Conference Proceedings*, ISSN 1861-8243), in addition to the extended abstract of no more than 1,500 words.
- **In submitting a competitive paper, the submitter affirms that, if accepted, at least one co-author will register for the 2019 NeuroPsychoEconomics Conference and appear at the conference to present the paper.**

### Poster submissions

- Poster proposals for the 2019 NeuroPsychoEconomics Conference must be submitted **by March 15, 2019, 11:59pm CET**. The link to the online submission tool can be found at <http://www.jnpe.org> (under “Conference” and “Submissions”). Please do not submit your poster proposal by email but only through the online submission tool.
- Poster proposals will go through an expedited review process. Your poster proposal is an extended abstract (up to 1,500 words) that describes the research presented on the poster, and a short abstract (up to 350 words) for inclusion in the *NeuroPsychoEconomics Conference Proceedings*, ISSN 1861-8243.
- If your proposal gets accepted, posters to be presented at the conference may have a maximum size of 120 cm (height) x 90 cm (width).
- The best posters may be invited for presentation in a special session at the conference (5-10 minute verbal presentation).
- **In submitting a poster proposal, the submitter affirms that, if accepted, at least one co-author will register for the 2019 NeuroPsychoEconomics Conference and appear at the conference to present the poster.**

### Symposium submissions

- Symposium proposals for the 2019 NeuroPsychoEconomics Conference must be submitted **by March 15, 2019, 11:59pm CET**. The link to the online submission tool can be found at <http://www.jnpe.org> (under “Conference” and “Submissions”). Please do not submit your symposium proposal by email but only through the online submission tool.
- In symposium sessions, a number of presentations (usually between two and six) discuss a common topic, with the goal of shedding new insights on this topic.
- Symposium proposals are single-blind reviewed (meaning submitter and presenter information are disclosed in the proposal) and are judged on overall quality, innovativeness, and fit with the NeuroPsychoEconomics Conference.
- A symposium proposal is one single document that must include the following: (1) title of the symposium, (2) complete names, affiliations, and emails of all participants, (3) a short abstract summarizing the symposium topic, and (4) a 3-6 page overview of the symposium including (a) a brief discussion of why the symposium topic should be of interest to the attendees of the NeuroPsychoEconomics conference, and (b) a short abstract (up to 350 words) of each individual talk.
- **In submitting a symposium proposal, the submitter affirms that, if accepted, all presenters involved in the symposium session will register for the 2019 NeuroPsychoEconomics Conference and appear at the conference to present their work.**

**We look forward to your submissions and seeing you in Rome!**
